Closing

Friday 26th July, 2024

BUILDING ON A SURE FOUNDATION
(CITA INTERNATIONAL SCHOOL SUMMER TERM REPORT 2024)

From the HOD Primary

Welcome back from the Easter holiday, into a new term, the last lap of the 2023/2024 academic session. This is the term which we shall all ensure that all our expectations and targets are fully achieved so that there can be promotion to the next class.

School Attendance

As usual, each day's lessons commence at 8.00 am prompt, the pupils are expected to be ready and seated in the classroom at 7.50 am, for the day's lessons. In the occasion that the child would be late to school for reasons beyond control, the parents are to notify the class teacher before 8.00 am. However, no child will be allowed into the school premises after 9.00 am.

Rampantly pulling the pupils out of school at will, is not in the best interest of the child academic performance. As such, parents should kindly structure or plan their appointments within the stipulated holiday period. In case of an emergency, please notify the administrative department of the school with the appropriate documents, stating the reasons why the pupil(s) would be absent from school and this should be done, at least three (3) days before the appointment date.

Health

Any pupil who shows any sign of an ailment, no matter how mild and non-contagious, will not be allowed into the classroom. Over time, we have observed that some very mild issues at some point, become emergencies that have the school personnel scampering to the hospital. Thus, pupils who show any sign of an ailment should be kept at home until it is appropriate for resumption.

Extra-Curricular Activities

CITA often emphasizes the importance of extra-curricular activities in every child's development. Hence, the reason why there are clubs in the school is to aid in boosting the pupils' social, moral, and emotional development. The pupils are encouraged to register in any of the school clubs; karate, ballet, robotics, and music (piano, guitar, violin, and drum).

E-School

The E-school is one of the many means through which homework, research, and projects will be occasionally sent. This term and subsequent terms, the pupils' results would be transmitted electronically. Parents, please alert the class teacher of any challenges faced during login. To this effect, the new parents are encouraged to pick up their login details for themselves and their children from the class teacher, while the old parents should ensure that their pages are still up and running.

Communication

CITA practices an open-door policy. Thus, we always encourage our parents to give us feedback

about our services. Please feel free to give us your concern(s) about the learning style, safety, or any other academic-related issue that requires attention from the head of the department.

From the HOD Nursery

Dear Parents and Guardians,

I am pleased to welcome you to the third and final term of the 2023/2024 academic session. Be assured that everything has been put in place and we have successfully kicked off the term; as traditional, the teachers are enthusiastic to give their best in this concluding part of the session. It is also the term we get to consolidate all skills and knowledge put in place since the beginning of the academic year.

We want to extend a warm welcome to all of our new students and families who have joined us this term. We are thrilled to have you with us and look forward to getting to know each of you.

In terms of upcoming events, we have some exciting activities and opportunities for students to get involved in. Our STEM Beginnings Day is a major highlight for the term. We are looking forward to seeing all of our students showcase their knowledge, creativity and love for learning in the field of science.

Here are a few reminders.

Personal hygiene and attire; Students are required to wear acceptable and hygienic uniforms daily. Minimal hair extensions should be used while braiding or weaving the hair of female students (no beads or coloured hair extensions).

Homework / Class Project: Homework, class projects, and explore activities are important and a compulsory part of each child’s assessment. Supervision is key and required.

Security: Please ensure that you fill in the weekly confirmation for your child. All new delegates for pick-up **must** be introduced in person to the class teacher after which a copy of the delegate's passport photo should be submitted for documentation.

Lastly, we want to remind parents to stay connected with us through our school website and social media channels. We will be posting regular updates and important information, so be sure to check in regularly to stay informed.

Thank you for your continued support and partnership in your child's education.

Warm regards,

Ijeoma Igwe.

“Respect all the reasonable forms of activity in which the child engages and try to understand them.” - Maria Montessori
